AFOLABI SAHEED

Data Annotation Specialist | AI Response Evaluation | Audio, Video and Text Annotation | English-Yoruba

afolabisaheed556@gmail.com | www.linkedin.com/in/saheed-afolabi

SUMMARY

Data annotation specialist with eight months of remote experience across audio, video and text. Labeled 343 video episodes, marking the actions in each segment and adjusting precise timestamps. Transcribed 56 hours of English-Yoruba audio. Completed a text classification simulation covering 47 customer messages for intent, sentiment and PII, and scored 5 AI responses against a rubric. Detail-driven, audit-ready and comfortable adapting to evolving project guidelines. Skilled in Excel, Power BI and SQL.

SKILLS

Annotation: audio transcription, video and action annotation, text classification, PII labeling, AI response evaluation, rubric scoring, edge case rationales, quality control, guideline QA, documentation and auditability, data privacy

Professional: guideline adaptability, analytical thinking, attention to detail, feedback delivery, remote reliability, written and verbal communication

Domain and language: medical knowledge (MBBS), English proficiency, Yoruba

Tools and data: Excel (pivot tables), Power BI, DAX, SQL, PowerPoint, data cleaning, dashboard reporting

EXPERIENCE

Video and Action Annotation, Atlas Capture

Remote | 02-2026 to 06-2026

- Annotated 343 ego-perspective episodes in verb, object and hand format at 93% accuracy, scored by a project auditor who cross-referenced labeled segments against the video annotation guideline.
- Marked the actions in each segment, adjusted precise timestamps to keep the annotation set audit-ready and documented observations, edge cases and potential improvements.
- Applied critical thinking to ambiguous action boundaries, evaluating each unclear segment against the taxonomy and correcting 94 boundaries with split and merge decisions, each logged with timestamps.
- Flagged 17 recurring ambiguity patterns in check-ins with the project coordinator, collaborated with project leads to clarify annotation standards and helped improve the guidelines.

Bilingual Audio Transcription, Leul AI

Remote | 11-2025 to 01-2026

- Delivered guideline-compliant transcripts of 56 hours of English-Yoruba audio with accurate punctuation, fillers and verbatim detail.
- Resolved 6 unclear audio segments by confirming edge cases verbally with the project coordinator and applying the agreed style rule, without slowing delivery.
- Applied critical thinking to keep data labels accurate, consistent and relevant, with a high standard of quality across all assigned tasks.
- Communicated with project coordinators through written and verbal channels, worked independently and managed deliverables remotely.

Data Annotation and Cleaning Intern, Idealnovate Africa

06-2025

- Extracted a dataset of 1,608 rows and 32 columns from stored records and cleaned it with SQL. Fixed inconsistent date formats, corrected improperly documented payment method and delivery status entries, and removed records with missing values, which made up less than 2% of the data.
- Calculated revenue for each record, isolated profit in Excel and built a pivot table to identify the factors driving revenue growth.
- Formatted the data, built an interactive Power BI dashboard for the report and produced a technical report for stakeholders in PowerPoint.

PROJECTS

AI Response Evaluation Simulation, Forage | 09-2026

- Scored 5 AI responses against a rubric covering task completion, factual accuracy and AI performance.

Data Labeling Analyst Simulation, Forage | 09-2026

- Classified 47 real customer support messages for intent, sentiment and personally identifiable information (PII) using one consistent labeling schema, and wrote rationales for 7 ambiguous edge cases.
- Reviewed labeling work done by others, identified inconsistencies, suggested a guideline improvement and applied ethical privacy practices in human-AI collaboration.

EDUCATION

MBBS, Kwara State University, Malete | 2024 to present

Data Analytics Program, Idealnovate Africa | 03-2025 to 05-2025 | Excel, Power BI, DAX, SQL, Data Cleaning
